## Reportage

Reportage photography by its own nature portrayed of a story through the medium of images. It originally evolved from photojournalism, developing a more candid approach to increase the levels of realism and emotion. Often you and your guests will not be aware they are being photographed; we will capture the mood and atmosphere of your special day.

With unlimited coverage at the bride's house for pre-wedding photographs.

Photographs will be taken inside the church, at the exchanging of rings, signing of the register, walking down the aisle (depending on the minister).

After the service, formal and informal photographs will be taken outside of the church/registry office.

These photographs can range from portraits to the complete assembly of guests, confetti shower and bridal car photographs.

We will then join you at the reception to take further photographs and capture your first dance.

We will stay and capture the whole day and evening to capture the full event comprehensively.

Minimum of 200 photos taken.

All photographs taken will be presented in a preview album for you to keep and select your final images
